

1984 911 Carrera Coupe

\$20,900

Black with black interior in this double duty eighties coupe. Set up for use as either a track or street car, it looks good and drives great. The primary modification is the Dan Jacobs' suspension, widely considered to be the best around. It excels on the track but is comfortable enough to be used on the street. The engine is stock 3.2L with a stock transmission (except Wevo short shifter). This car can also be sold with a DAS roll bar at no additional cost and track Recaro seats and 17" Kinesis wheels are also available. If you are looking for a well sorted track car, especially one that can double as a street car, we have a car in mind for you!

And keep in mind that Trade-ins of all kinds are always welcomed at Weissach Autohaus.
